Bagus Andre Nathanael

Kebon Jeruk, West Jakarta| +62895359517463 | bagusandrenathanael@gmail.com |Linkedin

Summary

Software Quality Assurance Engineer with experience in web and mobile applications (Automation & Manual), API testing, and data validation across banking, financial, and enterprise systems. Skilled in test automation using Playwright (POM), Selenium, Katalon Studio, and Cucumber BDD, alongside robust manual testing, SQL database validation, and backend service verification. Experienced in managing end-to-end testing lifecycles, collaborating with cross-functional teams, and ensuring product quality aligns with business requirements. Strong understanding of SDLC, STLC, and Agile/Scrum methodologies.

Work Experience

Software Quality Assurance Engineer

Pusat Gadai Indonesia (PGI) | April 2025 – Present | Jakarta Metropolitan Area, Jakarta

- Conducted test planning, scenario creation, and test case execution for web (Pugindo Web App) and mobile (GAOL Mobile - Android & iOS) based on functional and business requirements.
- Executed manual and automated testing to improve test coverage and reduce regression time (Playwright – POM) covering functional, regression, integration, UAT, and end-to-end testing.
- Developed and maintained comprehensive test cases, executed test scenarios, and documented test results with high precision.
- Identified, tracked, and verified defects using ClickUp with proper severity and priority classification to accelerate issue turnaround.
- Collaborated with cross-functional teams in Agile/Scrum framework to ensure high software quality and system reliability.
- Documented and tracked 100+ defects using Jam.dev, improving issue resolution turnaround time.
- Conducted API testing using Postman to validate integrations across multiple services, ensuring data consistency and performance testing (JMeter) to validate integrations and identify bottlenecks.
- Utilized Chrome Developer Tools to inspect HTTP requests and responses, validate request payloads, response headers, JSON data structures, and troubleshoot front-end and API-related issues during testing.

Software Quality Assurance Engineer

PT Paramadaksa Teknologi Nusantara (nexSoft) | August 2024 – April 2025 | Jakarta Metropolitan Area, Jakarta

- Performed 300+ manual and automated test cases covering functional, regression, and UAT testing for enterprise applications (ND6 & Nexchief).
- Created and executed test cases based on FSD and CR requirements to identify potential defects.
- Conducted API testing using Postman, log monitoring in JBoss, and database validation using SQL/SQLYog.
- Executed test automation using Katalon Studio (Groovy) and Selenium
- Managed defects in Redmine and collaborated with Customer Service, Business Analysts, and Developers.
- Participated in UAT and prepared QA reports to ensure feature readiness before deployment.

Quality Assurance & Data Engineer

PT Idea Kolaborasi Utama (Ideaco) – Bank Negara Indonesia (BNI) | Dec 2023 – Jul 2024| Jakarta Metropolitan Area, Jakarta

- Prepared test plans and test scenarios for Maverick ODS (Operational Data Store), a critical data integration system at BNI designed for high-accuracy real-time analytics.

- Executed 500+ test cases covering functional, integration, performance, security, and data validation of backend services and database queries.
- Executed SQL queries to validate data and perform ETL (Extract, Transform, Load) process validation across banking platforms.

Oracle Administrator & System Support
PT. Mitra Integrasi Informatika (Metrodata Group) | June 2023 – December 2023 | West Jakarta, Jakarta

- Maintained Oracle Exadata/ILOM-OS, automated health checks with Bash/Shell, and managed Oracle Support incidents for Sakti application across DC/DRC Kemenkeu DJPB RI.

Education

Stikubank University Semarang
Bachelor of Information Systems, GPA 3.62/4.00 2019 – 2023

Skills

Tools : Microsoft Office, Google Workspace, Jira, ClickUp, Redmine, Postman, SQLYog, JBoss, IBM DataStage, Apache Kafka, Apache Spark, Git, GitHub Actions, Oracle Exadata, Chrome DevTools, Jmeter,

Skills : Java, JavaScript, Groovy, SQL, Shell Scripting, Android Development, Business Analysis, Agile/Scrum, Problem Solving, Analytical Skill, Detail oriented, Teamwork, Communication

QA Skills : Manual Testing, Automation Testing, Quality Assurance Testing, Agile Scrum, SDLC, STLC, Test Case Creation, Test Planning, Black Box Testing, User Acceptance Testing (UAT), System Integration Testing (SIT), Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, API Testing, Playwright (POM), Selenium, Katalon Studio, Cucumber BDD, Appium, Performance Testing

Certificates

- Advanced Playwright Techniques: Optimizing Speed, Stability, and Cloud Testing - LinkedIn Learning 2026
- Get Started with Databricks for Machine Learning - LinkedIn Learning 2026
- Certified Business Analysis Professional (CBAP)® Cert Prep - LinkedIn Learning 2026
- Test-Driven Development in Spring Boot with JUnit and Mockito - LinkedIn Learning 2026
- Software Testing Foundations: Continuous Testing and DevOps - LinkedIn Learning 2026
- Mobile Testing with Appium - LinkedIn Learning 2026
- Programming Foundations: Software Testing/QA - LinkedIn Learning 2026
- Software Testing Foundations: Bug Writing and Management - LinkedIn Learning 2026
- Practical GitHub Actions - LinkedIn Learning 2026
- Cisco: Self-Paced Cybersecurity | PCAP: Programming Essentials in Python 2022
- British Council: English Proficiency Score (223) | ETSR: TOEFL Score Report (430) 2023
